

CASE STUDY – FARM BUILDINGS, GLOUCESTERSHIRE

CLIENT:
Private Client

CONTRACTOR:
Self-Build

GDV:
£1m

NO. OF UNITS:
Five Barn Conversations and Works to Existing Farmhouse

DESCRIPTION OF PROJECT:

Located on farmland in Gloucestershire, the works involve undertaking five barn conversions forming a collection of bespoke holiday accommodation, together with a central games/bar/events space.

Additional work is to be completed to the existing listed farmhouse.

With custom contracts of a design and build nature, the project is a sympathetic mix of refurbishment and new build.

OUR INVOLVEMENT:

Working closely with the Investor we built from scant information, a detailed cost plan for units giving confidence, structure and programme to the build that the project was both feasible and an attractive proposal.

We continue to be involved with the build offering further value.
