

ANGLIA SQUARE, NORWICH

CLIENT
Weston Homes plc

DURATION
8 Years

NO. OF UNITS
1100 units and 86,111ft² of
business space

DESCRIPTION OF PROJECT:

The redevelopment of Anglia Square, Norwich involves the demolition of existing structures to make way for 1100 new residential units and 86,111ft² of new business space.

As part of the work the existing city centre road network requires extensive upgrade whilst keeping all routes operational at all times.

OUR INVOLVEMENT:

To date we have worked alongside Icen Projects to provide detailed costings for the scheme's city centre road improvement works.

These works involve signalling and highway improvements, mobility hub expansion and are all to be carried out with little disruption to the commercial centre of Norwich.
